

Microsoft Office 365 Outlook

MAGNIFIES PRODUCTIVITY WITH RICH FORMS, TASK ROUTING, AND BY CONNECTING ENTERPRISE PROCESS OPERATIONS TO EMAIL

Appian delivers an enterprise platform to revolutionize customer experience, optimize business operations, and master global risk and compliance. Powered by business process management and case management capabilities, Appian's low-code approach accelerates the time it takes to build and deploy powerful, modern applications on-premises or in the cloud.

WHAT WE OFFER

Design, execute, manage, and optimize

enterprise business processes with Appian business process management. Quickly define processes in Appian's visual process modeler. Instantly execute processes and manage tasks across users. Analyze process performance for future optimization.

Need a business application fast? Quickly go

from idea to solution with Appian's low-code application development platform. Appian's visual design tools for process, data, business rules, interfaces, integrations, and more enable rapid digital transformation of your enterprise in an agile and intuitive platform.

Create a complete enterprise case

management solution by uniting data, content, collaboration, and process in Appian Records. With prebuilt integration connectors to Microsoft Dynamics 365, SharePoint, and more, designers can quickly unify systems and overlay action for efficient case handling.

Easily roll out processes and applications

using Appian's Microsoft Office 365 Outlook Add-in. From Appian's process engine, users directly receive task forms without leaving their Microsoft Outlook desktop work environment. Appian's rich forms and task routing are available while in Outlook.

Appian is a performant, secure, and reliable platform on which we could quickly implement BPM and case management solutions.

KEY USE CASES

Business-Class Email

Gain large, 50GB mailboxes with your own custom domain that can send messages up to 25MB in size, with contacts, shared calendars, and spam and malware protection. Available on PC, Mac, Windows Phone, iPhone, Android, and more.

Cloud Storage

Get 1TB to store, back up, and share files, accessible from almost any device, and even offline.

Meet Online

Hold scheduled or ad hoc online meetings for up to 250 participants, with screen sharing, audio and video, virtual whiteboards, polls, and shared notes. Anyone can participate through any HTML5 browser.

Collaborate, Chat Privately

Set up a social network that helps your company stay connected, share information across teams, and make faster, more informed decisions.

ADDITIONAL BENEFITS

Save Your Company Money

Office 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense. And without on-premises servers to run email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

Scale Your Business Quickly and Flexibly

Office 365 grows with you on the Microsoft Azure cloud. Adding a new user is as simple as buying an additional license, which allows access to business critical technology on up to five PCs/Macs and five mobile devices. Office 365 provides many plans to fit the right capability needs and price points for each user in your organization.

Technical Support

Your Office 365 subscription comes with 24/7 support from a global network of experts, with 1-hour response for critical, service-impacting events.

Financially Backed SLA

Get peace of mind knowing your services are available when you need them with a financially backed, 99.9% uptime service level agreement.

Simplified Management

Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed data centers with continuous backup and disaster recovery abilities.
